## EDUCATION

---

### University of California, Irvine

Bachelor of Science (Software Engineering) | GPA: 3.8

### Prakash Higher Secondary School

High School Diploma | GPA: 3.9

## PROJECTS

---

### Google Homepage Clone (July 2024)

#### HTML, CSS, Responsive Design, Flexbox, Grid Layout

Developed a fully responsive clone of the Google homepage using HTML5 and CSS3. Implemented the page layout with Flexbox and CSS grid, ensuring the design adapts to multiple screen sizes.

### Web Portfolio (August 2024)

#### HTML, CSS, Front-End Development, Media Query, Flexbox, Grid Layout, CSS Transitions

Created a personal portfolio website using HTML & CSS frameworks. Applied modern **UI/UX** settings to provide smooth navigation and accessibility.

### Database Management (August 2024)

Understanding **DBMS** in Python through **SQL** queries by using the database provided on 'Airports'. Used the **Tkinter GUI** to navigate different options such as adding, removing or editing existing data in database.

### Publishing Online (February 2024)

Creating a direct messaging application using **sockets** in Python to make use of **protocol** messages. The messages were obtained in the form of **JSON** strings and stored in a **dictionary**. Used **Tkinter** to create a **Graphical User Interface** which showcased different widgets to display the direct messaging data.

### File Explorer (January 2024)

A program to sort all the files on your device based on your preference. Used modules such as **Pathlib** in Python and concepts of **recursion**, **file creation** through **file path**, and **Classes** in Python.

## RELEVANT COURSEWORK

---

### Data Structure Implementation and Analysis (January 2025)

#### C++, GoogleTest

Focuses on implementation and **mathematical analysis** of fundamental **data structures** and **algorithms**. Covers storage allocation and **memory management** techniques. Thorough testing of boundary and edge cases via **Gtests**.

### Programming in C/C++ as a Second Language (December 2024)

An introduction to the lexical, syntactic, semantic, and pragmatic characteristics of the C/C++ languages for experienced programmers. Emphasis on object-oriented programming, using standard libraries, and programming with manual garbage collection.

## AWARDS & ACHIEVEMENTS

---

### Dean's Honour List (2023 - Present)

### General Secretary of High School (2022 - 2023)

Voted as the **General Secretary** by the School's representative student body. Leading the school's student committee along with organising all the events taking place in High School. Equipped with **leadership skills** along with **team management skills**.

## SKILLS

---

**Skills:** C++, Python, JavaScript, SQL, R, Git, IDE (Vim, VS Code), WebDev - HTML, CSS; Team management
